

CGI Learning Center Bulletin Volume 3, No.1

January, 2015

How to VPN to use CGI Reference Databases from home?

VPN is a Virtual Private Network. VPN is an alternative to a truly private network, where normally no one else can use it. VPN allows you to access CGI Learning Center as though you are on campus. The VPN server provides your traffic and forwards it to whatever its original destination was, and it changes the source address of your traffic from your IP address to a CGI Learning Center IP address.

Using VPN means Internet access as well as computers or smart phone will be available to access CGI online reference databases. Contact CGI Learning to apply for your VPN account to setup a VPN client's server network and install it on your computer. After that, you can open a web browser and use CGI Learning Center reference databases.

No worries, with VPN all available e-journals from CGI Learning Center can be searched from the reference databases of the following list

http://www.cgi.ac.th/library/services/ref_db

CGI Thesis Collection

CGI now provides the Institute's graduate dissertations and theses over 93 titles dating from 2008 to present in printed volumes. These can be searched online from CGI Learning Center through the Library Catalog:

<http://library2.cri.or.th/cgi-bin/koha/opac-main2.pl>

From CGI web page, go to library main catalog, you can browse and search quickly by typing "Dissertations" in the "Item Type" box, and select "CGI Library" in the "Branch" box. And by advanced search you can also specify your search from Author, Title and Subject.

CRI Reference Books @ CGI

You may notice a change that CRI reference collection has been removed from the library. The books are now shelved at CGI Learning Center on R1 Floor, and some of them are displayed on M Floor for convenient search. Shown below are some titles which were frequently used.

1. A practical guide to clinical bacteriology
 2. A practical guide to protein and peptide purification for microsequencing
 3. A supplement to the hemoglobin and thalassemia syllabi
 4. A syllabus of human hemoglobin variants
 5. A syllabus of thalassemia mutations
 6. Animal cell culture
 7. Atlas of HIV infection
 8. Biosafety guidelines in genetic engineering and biotechnology : for laboratory work
 9. Biosafety guidelines in genetic engineering and biotechnology : for field work and planned release
 10. Cell biology protocols
 11. DNA microarrays : a molecular cloning manual
 12. Genetic analysis of pathogenic bacteria : a laboratory manual
 13. Glycobiology : a practical approach
 14. Handbook of capillary electrophoresis
 15. Handbook of combinatorial chemistry : drugs, catalysts, materials vol.1-2
 16. Handbook of derivatization reactions for HPLC
 17. Molecular biology and biotechnology : a comprehensive desk reference
 18. Principles of biochemistry : student study art notebook
 19. Proteins and proteomics : a laboratory manual
 20. Safety assessment for pharmaceuticals
 21. The American illustrated medical dictionary
 22. The biotechnology theory and techniques volume II Genetic engineering mutagenesis separation technology
 23. The cancer handbook ; vol.1-2

Please be reminded that
CGI Learning Center services
can be reached from
FACEBOOK

Let's see! What are new services from
CGI Learning Center Fanpage

<https://www.facebook.com/CgiLearningCenter>

- Request Fulltext Papers from Reference Databases
- Renew the overdue books
- New Books Update
- Interesting news and other knowledge sharing
- etc.
