COVID-19 Outbreak

CGI Learning Center, due to the rapid spread of the global pandemic disease COVID-19, closed from March 16 to April 30, 2020. This was in compliance to the Thai Government Emergency Act to prevent the communities from the infectious disease. CGI Learning Center can still be accessed through online communication channels, and staff stayed in touch with CGI users to help with any problems such as renewal of borrowed items and search strategy of online databases.
